THE WEEK ON THE EXCHANGE.

Market Still Continues.

Mammoth Climbing Up-Daly-West is Advancing-Dexter Firmer-Yankee Con. is Strong.

Communication of the same of TODAY'S METALS:

SILVER 62 3-4 LEAD, \$4.00 CASTING COPPER 15% communications of the same of

The week's business on the Mining

and Stock Exchange closed today with the sale of 3,600 shares for \$2,189. The shares sold on the exchange during the week amounted to 58,602, which represented a selling price of \$32,036.23. The improvement noticed in the stock market last week continues for the very good reason that improvements are recorded in several properties in the districts. The sensation of the wek has been furnished by Star Coa. of Tintic, which, after marketing a car of ore showing nearly fifteen ounces in gold per ton, has receipted this week for five more cars of ore which have netted the company about \$7,000, Added to this has come the news of a big strike on the 300 level. Information regarding the strike was very meager today, but it is presumed it will prove to be permanent. The stock has jumped from 54 to 70 in the past day or two and the opinion seems to be peral that it will easily go to \$1 share, It was a little weaker today. The company is still in debt the amount of the voluntary assessment, but as an effset to that, it is said, that there are

30,000 shares still in the treasury. Mercur and Con, Mercur also furmished some surprises this week. The former opened the week with \$7.10 bid and closes around \$8, while the former has moved up to \$4.75 bid. Ajax has not been very active, but the stock shows more firmness than it has for the past few weeks. It is expected that important disclosures will be made in the drift from the 1,000-foot, level within the next sixty days. Good reports continue to come from the Dexter, which accounts for the stock advancing to 90 bid instead of being offered at 88 as it was in the beginning of the week. Lower Mammoth which has fluctuated between 41 and 45 during the week now

loses around 43. Mammoth has also furnished a surprise. On Monday it hung around \$2.19 per share. From that figure it moved up to \$2.25 on news of the declaration of the monthly dividend, It has since risen to \$2.28 because of rumors that a strike has been made on the \$000 level.

Grand Central has been inactive and weak, Silver King shows more strength as does the Swanseas.

Daly-West is advancing rapidly,
Various rumors are affoat concerning

Various rumors are affoat concerning the company's surplus. From good authority it is learned that it is about \$100,000 and is being added to at the rate of about \$15,000 per month. It is anticipated that the dividend will be raised to \$50,000 about the first of the year which may have given strength to

Yankee Consolidated has made its first shipment during the week and the stock is stronger at the close of the week than it was at the beginning. Daly is weakening while Bullion-Beck is unchanged. Closing figures were posted as fol-

DIAMOND END IS LOOKING UP.

The Improvement in the Stock Tesora and Shoebridge Developments Inspire Confidence.

STAR CON. WEAKER TODAY. STRIKE IN THE MAMMOTH.

Without Foundation -At the May Day-Utah Shipment Con. Mercur Operations.

The outlook for the Diamond end of Tintic district is more cheerful today than it has appeared for some time past. The feeling is growing that depth only is needed in that district to reach big ore bodies. Manager T. R. Jones of the American Smelter company has become more confirmed in this belief since the assay returns were obtained yesterday afternoon from the last samples sent up by Superintendent Carruthers of the Shoebridge-Bonanza, The mine assays showed small values in silver and copper. When the test was made for lead, however, the assay showed 24.5 per cent in that metal with 8 ounces silver and 1.4 per cent cop-per. Two feet of this ore appears in the drift on the 525-foot level. Heretofore the management has been running through a body of iron-copper ore of low grade, but the present change is very encouraging, and while the body is not large it is expected that it will shortly develop into something more

substantial. The success that has attended the efforts of the Tesora management in going down on that property has been so marked that Col. Heffron said today that the shaft will be sunk 100 feet deeper as soon as possible. The man-agement will run to the footwall from the 375-foot level, where the shaft will be put down. Meantime a great deal of good ore is being taken out from

the upraises now being run and is being piled up on the platform.

Mr. T. R. Jones also favors sinking a new shaft on the Joe Bowers and going down several hundred feet below the present workings. Nothing will be done in the matter until John Dern comes home, but it is more than probable that on his arrival the proposition to sink the shaft will be agreed to and under-taken with vigor. Such action will neessitate the levying of at least two assessments.

THE RUMOR IS INCORRECT. Mr. McIntyre Says There is No Strike on the 900 Level of Mammoth.

The report that a strike had been made on the 900 level of the Mammoth mine at Tintic proves to be without foundation. In a conversation with Mr. McIntyre this afternoon by 'phone, it was learned that no such strike has been made. Mr. McIntyre said, how-ever, that a winze has been run in ore ever, that a winze has been run in ore a distance of 40 feet from the 800 level. No drift is being run to the same ore body from the 900 level. The recent strike on the 1700 level is said to be looking well. Mr. McIntyre says the face of the drift is all in one of quality similar to that shipped years ago from similar to that shipped years ago from

UTAH SHIPMENT.

Another Car of High Grade Ore Was Marketed Today.

Marketed Today.

The Utah of Fish Springs marketed a car of ore today on controls showing 166 ounces silver and 49.6 per cent lead per ton. The car netted the company \$2.650. It will be followed by another car about the end of the month. It is stated that the ore would be marketed more frequently were it not for the long wagon haul. As it is, the company has been shipping two cars a month affords the company the snug sum of between \$5,000 and \$6,000. The operating expenses are about \$3,000 per operating expenses are about \$3,000 per month, which leaves a nice margin. The annual meeting of the shareholders is set for October 9th. It is stated that the company will begin to pay dividends before Christmas.

THE CON. MERCUR. Connection Will be Made With Electric Tunnel on Monday.

On Monday next it is expected that On Monday next it is expected that connection will be made by one of the winzes between the Resolute and Electric tunnels at the Consolidated Mercur mine. Three winzes are being run towards the Electric tunnel and it is expected that connection will be made in each before the end of the month, which will greatly facilitate the delivery of Mercur ores to the great mill. The last of the two 500 horse power generators will reach the mine this week. erators will reach the mine this week. Later the electric motor will arrive to haul the ore cars. Some time next month it is said the new electric plant will be started up .

AT THE MAY DAY.

Two Cars of Lead Ore Brings \$1600 -The Company's Debt.

Two cars of lead ore from the May Day of Tintic were sold on yesterday's market for \$1,600, another car of lower grade bringing \$400. Various things are stated as to the indebtedness of the company, but it is learned from headquarters that while the company is getting out of debt it has still a balance of some \$8,000 against it. At the beginning of the month the total in-debtedness was \$8,400. This will be reduced about \$1,000 during the present month. It is expected that the shaft will reach the 200 level about October 1st, when some new disclosures should

ITEMS FROM BINGHAM. Three Feet of Solid Ore Found in the Red Wing Extension.

In its weekly resume of conditions in "Old Reliable" camp the Bingham Bulletin says:

Beck & Holsten are making a two

shipment (final clean-up) from their Tuesday Fortune mill make its first shipment of concentrates via Dalton & Lark tramway. Tom Mayne is delivering at depot a

le of carloads of good lead ore Montezuma. A mill of about capacity of the Rog-A fill of about capacity of the Rog-ers is to be built at mouth of Queen tunnel this fall or early in the spring. Yesterday Dewey tall was finishing a run on 325 tons of Neptune ore—the

product being 80 tons of very fine look-

ing concentrates,

Last Chance mill is now running one shift daily on ore from British tunnel. The output from tunnel, it is said, will

trial lot of ore from the York," with a run on 100 tons from Powers& Jones' Black Dog lease to follow. Two cars of Silver Shield concentrates

Two cars of Silver Shield concentrates were among shipments this week, and 75 tons of good Silver Shield crude ore will soon be on the market.

A quantity of Last Chance concentrates were marketed this week. The mill is reported to be doing excellent work, an important factor in Last Chance affairs. Foul air has caused a temporary sus-

pension of production at the American and Washaukee. Manager Hill plans to deliver 150 tons of second grade this fall to one of the concentrators. An up-

making a showing of mineral that augurs well for the future.

A contest is on between Exchange G. & C. M. Co. and Aztec M. Co. to quit title to ground located by the former as the Hatfield Nos. 1 and 2, Woodman No. 1 and Copper Glance claims, and by the latter as Irish Lord, Forepaugh, White Star and Irish Duke. The ground neighbors Butterfield mines and is valneighbors Butterfield mines and is val-

Superintendent Dan McLeod of the Superintendent Dan McLeod of the Red Wing Extension appears to be lift-ing the cap from a large body of ore in that property. Near face of tunnel, which had been driven 400 feet, be started a winze Wednesday and directly went into three feet of solid ore while the whole bottom is practically in a good milling proposition. Manager McCarrick has been notified and he with others will be out from the company's city headquarters tomorrow to examine the strike.

Marysvale Notes.

The Salina Press has the following mining notes: It is reported here that the Dalton mine of Marysvale has been bonded for

The Dalton is arranging to ship 400 sacks of high grade ore—about 32,000 pounds. The ore is being packed down the hill now.

The old Copper Belt mine at Marysvale that is being worked under charge of Lee Bartholemew is getting ready to hip two cars of ore. The Webster and Gen. Eyrle mines at

Marysvale are each preparing to make shipments. With all the above mines shipping ore the old camp should com-nence looking up.

It is rumored that the Out of Sight mine at Marysvale has been bonded but

no particulars are given.

Jake Miller has just returned from a trip over in Millard county. Jake was one of the lucky individuals that pulled out some \$8,000 or \$10,000 out of the Gold Mountain district for his share the past summer.

Tintic Shipments.

Special Correspondence. Eureka, Sept. 21.—The total number of carloads of ore from the Tintic district for the past week amounted to seventy-four, which amount is somewhat lower than the previous two weeks. Of this amount the Eureka mines shipped over one-half, or forty-five carloads, the Centennial-Eureka heading the list with twenty-eight cars. The other shippers from this and being The other shippers from this end being the Gemini, Godiva, May Day and Yan-kee Consolidated. The early part of this week the Yankee Consolidated sent out its initial shipment of two carloads of silver-lead ore, which, ac-cording to reports netted the commpany about 65 per ton. This is a slight mar-gin over the most sanguine expeditions and at the present rate the company's exchequer ought to be swelled to a sufficient size to pay a dividend before many months. Another consignment of ore will find its way to the market soon and at present three men are engaged in sorting the mine's product for

The week's output from the Mammoth end of the district were confined to the Grand Central, Mammoth and Star Consolidated with the Grand Central in the lead. The shipment in detail for the week are as follows: Carloads.

Wall Street Stocks Make a Poor Showing- Railways Decline-Live Stock Steady.

New York, Sept. 22.-The Wall street market was quite active at the opening, and with the exception of a few international stocks prices declined. In a few issues the opening losses were recovered, but the market subsequently became active and weak, and when B. & O., Erie first preferred, Pennsylvanvia, sugar, steel and wire and Tennessee coal were raided, these stocks lost more than a point. A number of dormant stocks were off from 1 to 3

points.
The market steadied before the bank The market steadied before the bank statement came out and fell again by rapid strides when it appeared. The high priced specialties suffered most. People's gas, sugar, the local tractions and Tennessee coal made extreme declines of from 1½ to 3 points. Baltimore & Ohio, Pennsylvania and Louisville led the decline in the railroad list, which fell to a new level. Only feebles which fell to a new level. Only feeble rallies were made when the shorts bought to cover. The closing was active and irregular at the lowest for most stocks.

Closing stocks: Atchlson, 26¼; preferred, 67%; B. R. T., 50; A. S. W., 22½; preferred, 70%; C. C. C., 58; B. & O., 66%; preferred, 76; C. B. & Q., 121; C. F. & I., 29¾; C. G. W., 10; C. BUSINESS NOTES.

The various bank statements published in the News during the week, show that the congestion of money here continues, and all indications point to further increase. The main accumula ion is in the savings banks; Zion's Saving Bank Trust company shows deposits of over \$2,500,600; the Deseret Savings, of nearly \$1,500,000, the high water mark in the history of both institutions. Cashler George M. Cannon states that they now have on head more than two and now have on hand more than two and a half times the amount required by law. He was asked whether the amount of deposits was apt to run down as taxes became due, and he replied that while the tax period usually had its while the tax period usually had its effect on deposits, owing to the large number of their depositors, still last year proved an exception, as they had more money on hand at the end of the tax period than at the beginning. At McCornick & Co's., where the deposits on September 5th, the date of the bank statement reached \$2,200.000 its way. statement, reached \$3,200,000, it was stated that there was an active demand or all the money that they had to loan Local stocks have shown considerable activity during the week and the sugar stocks have reached new levels, \$15.45 stocks have reached new levels, \$15.45 being offered for Lehl, and \$155 for Ogden, but without any result, as both stocks are largely in the hands of people who are holding for a permanent investment. The price of refined sugar continues as stiff as ever, and the Ogden factory, which has turned out over half a million pounds this season, has profited by the condition of the market. Mr. Eccles, president of the company, who was in town today, said that

who was in town today, said that

the delivery of beets was very light as

the farmers were giving their first attention to tomatoes, so the factory was not running to its capacity. He says the activity in the tomato industry is something unparalled. In passing one canning factory this morning, he count-ed more than 100 teams loaded with tomatoes and waiting in line to discharge their loads. He says it is no uncommon thing for farmers to have to wait all day and all night before their loads can be handled by the can-ning factories. Mr. Eccles states that the drouth has affected the Oregon

Sugar company's crop and that the out-put will be light. put will be light.

At Lehi, the expectation is that sugar will be on the market Tuesday or Wednesday. There are 1.600 farmers who are planting for the Lehi concern this year, and 400 of them are now engaged in digging beets; the delivery at the factory will go on in earnest from henceforward.

from henceforward. from henceforward.

The semi-annual dividend of Z. C. M.
L. amounting to four per cent on the
capital of over \$1,000,000, has been declared by the board, payable on October
15th, to all stockholders of record, Sept.
25th. The stock transfer books close on the evening of that date and re-open October 5th. Other stocks stand about as recorded last week, the last quota-tions being as follows:

BANK CLEARINGS.

The total clearings of the banks of the country for the week ending yester-day amounted to \$1,369,648,678, a falling off of 27.7 per cent from the same week last year. Salt Lake's clearings were \$2,532,758, an increase of 2.1 per cent over the same week last year. This big total puts us ahead of Los Angeles, Portland, Ore., Portland, Me., Ft. Worth, Spring-field, Hartford, Memphis, Washington, Peoria and Rochester,

WOOL.

The wool situation remains un-changed both in Utah and in the East Western shippers who have put their wool into commission at Boston are apparently holding on with a view to seeing what the next two or three months developments will be. The prospects are that very little wool will change hands before the first of the year.

SIXTY-SECOND DIVIDEND. Z. C. M. I., Salt Lake City, September 21, 1900.

At a meeting of the directors held resterday, a dividend of 4 per cent for the half year was declared upon the capital stock of this institution of reord, September 25th, 1900, payable on and after October 15th next, to holders personally upon presentation of their stock certificates, or upon their written order. T. G. WEBBER, Secretary.

A BEAUTIFUL COMPLEXION

MME. A. RUPPERT'S WORLD RE-NOWNED FACE BLEACH AL MOST WITHOUT COST

NO MATTER HOW BLEMISHED THE SKIN, FACE BLEACH

Madame A. Ruppert says;

"My Face Bleach is not a new untried remedy, but has been used by the best people for years, and for dissolving and removing forever pimples, freckles, moth patches, blackheads, eczema, tan, sunburu, saliowaess, roughness or redness of the skin, and for brightening and beautifying the compication it has no equal.

It is absolutely harmless to the most delicate skin.

The marvellous improvement after a few applications is most apparent, for the skin becomes as nature intended it should be, smooth, clear and white, free from every impurity and blemish. It cannot

every impurity and blemish. It cannot fail, for its action is such that it draws the impurities out of the skin, and does not cover them up, and is invisible during use. This is the only thorough and permanent

This is the only thorough and plan way.

During this month, I will offer to all a trial bottle of my world renowned Face Illeach, sufficient to show that it is all that I claim for it, and any reader of this can send me 25 cents in stamps or silver, and I will send the trial bottle, securely packed in plain wrapper, sealed, all charges prepaid. my book 'How to be Beautiful' will be mailed free to all who will write for it."
